

Each Intervention Anchor Chart contains steps to allow the child to investigate independently.

Children investigating an Intervention may be provided with the Intervention Anchor Chart as a guide to follow as they investigate independently.

Children investigating an Intervention may have their progress recorded in the Progress Sheet.

Missing and Equivalent Addition and Subtraction Number Sentences

(Addition Subtraction 22 Patterns Algebra 20)

RESOURCES: playing cards, pencil, paper / Maths book

Record a number sentence with each number missing.

$$\underline{\quad} + \underline{\quad} = \underline{\quad} - \underline{\quad}$$

Select 2 numbers to place on one side of the equals sign.

Record your missing number sentence.

$$5 + 8 = \underline{\quad} - \underline{\quad}$$

Record what this side of the equals sign equals.

$$5 + 8 = \underline{\quad} - \underline{\quad}$$

13

Solve the missing number sentence by making the other side of the equals sign equal.

$$5 + 8 = 15 - 2$$

Each day, record the child's progress. This record, along with the child's recordings and explanations, can be used as: **ASSESSMENT OF LEARNING (SUMMATIVE)** – at any point in time the child's demonstrated level of understanding may be recorded for tracking and reporting purposes.

ASSESSMENT FOR LEARNING (FORMATIVE) – the teacher may use the child's demonstrated levels of understanding over time to plan, implement and evaluate further teaching and learning. Recording daily will allow the teacher to identify irregular learning progress, where the child demonstrates understanding in one lesson but not in subsequent lessons. This record can accompany an IEP, and a referral for further support for the child.

ASSESSMENT AS LEARNING (FORMATIVE) – the child may be shown this record to allow them to identify their learning progress. The teacher will use their teacher professional judgment to decide whether this is appropriate.
