

INTERVENTION

Describe the Position of an Object in Relation to Another Object

Each Intervention Anchor Chart contains steps to allow the child to investigate independently.

Children investigating an Intervention may be provided with the Intervention Anchor Chart as a guide to follow as they investigate independently.

Children investigating an Intervention may have their progress recorded in the Progress Sheet.

Describe the Position of an Object in Relation to Another Object (Measurement and Geometry 3)

RESOURCES: objects

Have some objects.

Arrange the objects.

Describe the objects position in relation to one another.

The ball is above the teddy.

The teddy is below the ball.

The box is next to the teddy.

The box is beside the teddy.

The teddy is under the ball.

The teddy is next to the box.

The teddy is beside the box.

Reflection: How can we describe position?

Progress Sheet

Child's Details (Name and Intervention Concept):

Each day, record the child's progress. This record, along with the child's recordings and explanations, can be used as: **ASSESSMENT OF LEARNING (SUMMATIVE)** – at any point in time the child's demonstrated level of understanding may be recorded for tracking and reporting purposes.

ASSESSMENT FOR LEARNING (FORMATIVE) – the teacher may use the child's demonstrated levels of understanding over time to plan, implement and evaluate further teaching and learning. Recording daily will allow the teacher to identify irregular learning progress, where the child demonstrates understanding in one lesson but not in subsequent lessons. This record can accompany an IEP, and a referral for further support for the child.

ASSESSMENT AS LEARNING (FORMATIVE) – the child may be shown this record to allow them to identify their learning progress. The teacher will use their teacher professional judgment to decide whether this is appropriate.
