

INTERVENTION

Long and Short Time Durations

Each Intervention Anchor Chart contains steps to allow the child to investigate independently.

Children investigating an Intervention may be provided with the Intervention Anchor Chart as a guide to follow as they investigate independently.

Children investigating an Intervention may have their progress recorded in the Progress Sheet.

Progress Sheet [page 3](#)

Long and Short Time Durations (Time 3)

RESOURCES: pencil,
paper / Maths book

Think of an activity.

I could draw a circle.

Think of another activity.

I could count to 100.

Which activity would take more time?

Counting to 100 would take more time.

Which activity would take less time?

Drawing a circle would take less time.

Repeat with other activities.

Reflection: How can we think of activities that would take a long time and activities that would take a short time?

Progress Sheet

Child's Details (Name and Intervention Concept):

Each day, record the child's progress. This record, along with the child's recordings and explanations, can be used as: **ASSESSMENT OF LEARNING (SUMMATIVE)** – at any point in time the child's demonstrated level of understanding may be recorded for tracking and reporting purposes.

ASSESSMENT FOR LEARNING (FORMATIVE) – the teacher may use the child's demonstrated levels of understanding over time to plan, implement and evaluate further teaching and learning. Recording daily will allow the teacher to identify irregular learning progress, where the child demonstrates understanding in one lesson but not in subsequent lessons. This record can accompany an IEP, and a referral for further support for the child.

ASSESSMENT AS LEARNING (FORMATIVE) – the child may be shown this record to allow them to identify their learning progress. The teacher will use their teacher professional judgment to decide whether this is appropriate.
